

The NeRF is Dead.

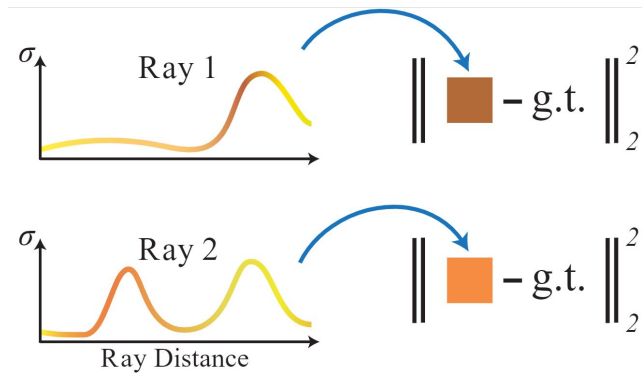

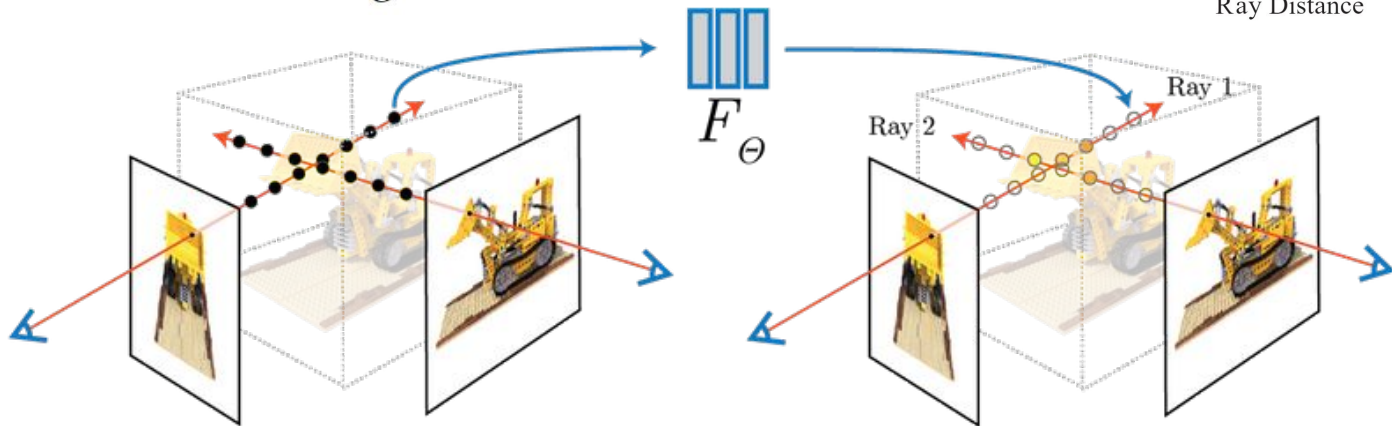

The NeRF is Dead...

Long Live the NeRF.

(03/2020) NeRF: Neural Radiance Field

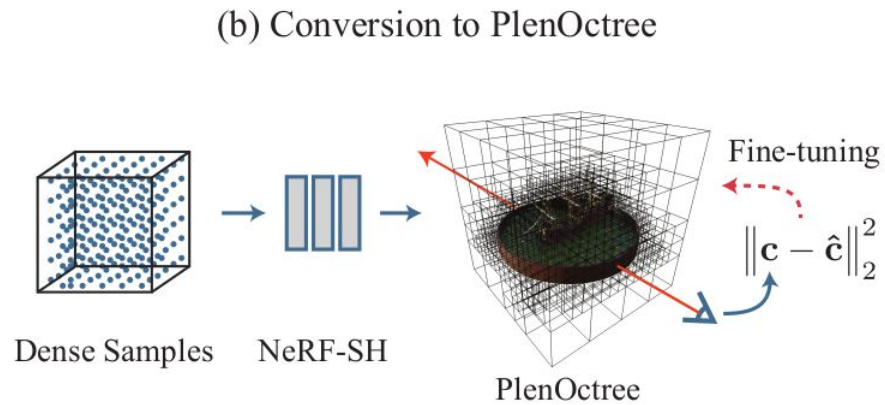

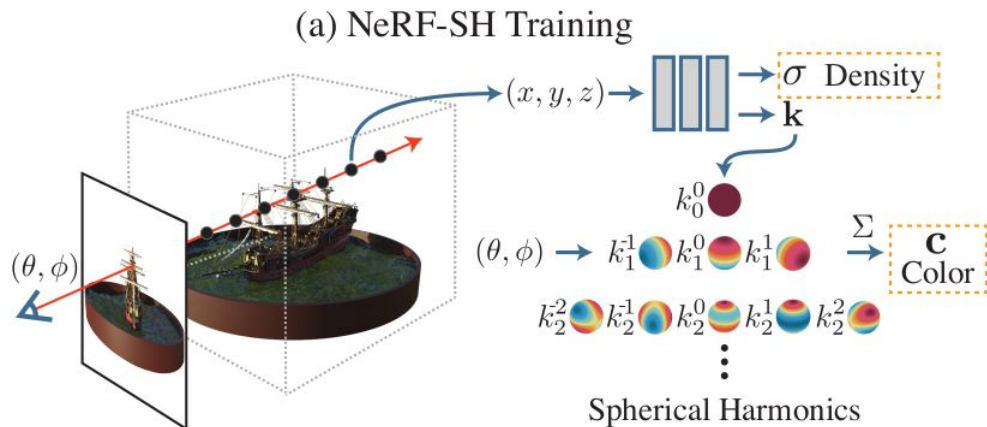

<https://www.matthewtancik.com/nerf>

$$(x, y, z, \theta, \phi) \rightarrow \begin{array}{|c|c|c|} \hline & & \\ \hline \end{array} \xrightarrow{F_{\Theta}} (RGB\sigma)$$

*Apparently this is CONIX work?

(01/2022) Instant Neural Graphics Primitives

<https://nvlabs.github.io/instant-ngp/>

What's a NeRF anyway?

- Encoding 3-dimensional objects or scenes in the weights of Neural Networks in order to render novel views?

What's a NeRF anyway?

- Encoding 3-dimensional objects or scenes in the weights of Neural Networks in order to render novel views?
- Or enlisting machine learning techniques to help augment more traditional computer graphics methods?
